As you can see the syllabus has a mixture of Speakers, In-house and High Profile Guests, Competitions and Social Events. In effect something for everyone.

In addition to the normal club nights the club runs teaching nights for members.

These include Basic Camera knowledge & handling; Digital file handling, Photoshop manipulation & printing; Audio Visual; Portraiture; and many other aspects of photography

We also have special interest groups for Audio Visual, Nature and Portraiture.

All levels are catered for from beginner to advanced.

There is a wealth of experience in the Club and members are only too happy to help out new members.

There are also a number of photographic outings organised over the year.
